

# „7-lake-walk“

## 7th and 8th may in 2010 around Markkleeberg

### „ ... meeting friends by walking!“

In 2004 was born the idea of a hiking event in Markkleeberg and it started with 180 hikers. After 7 years the „7-lake walk“ becomes the symphony- ambassador of the „Leipziger Neuseeland“. Over 2.200 enthusiasts followed the invitation to a hike between 7 lake and 11 locations the last year. More than 24 hours the Leipziger Neuseeland experienced a real state of emergency. Associations in historical costumes, reproductions of historical frontiers and events, ways and objects by torchlight and 104km full with saxonian cordiality. But first of all it's the change of the landscape, which attracts all the hikers. Every year there is something new to admire and the unstoppable change of a dirty open cast- mining-area to a beautiful tourism region is always impressing for every guest. The "7-lake-walk" mobilizes young and old, delight- and sporthikers but also hikers from near and far. Placings are completely unimportant, because the collective hiking and the discovery of the "Leipziger Neuseeland" in an unhurried tempo of approximately 5km/h is the center of attention. On the whole distance you can find 17 catering points where you can take a break. There are 20 hiking routes to choose in 2010. Most of them are having their startpoints in Markkleeberg but also on 6 further places. Numerous special bus and ships are on duty helping to make this hike an impressing event for you.
